Work experience

AUGUST 2016 - NOW | BUSINESS ASSOCIATE | TRUE AI

- Part-time work (24 h/week) alongside university studies and full-time during summer 2017.
- Engaged in managerial, strategic and financial initiatives and responsible for the HR and admin business functions of a growing, enterprise-focused AI startup.
- Instrumental in writing company research grant proposals, successfully obtained funding from the European Union and the UK government.
- Represented the company before clients, investors and during conferences.
- Involved in front-end software engineering and UX/UI design, notably building the company's website (trueai.io).
- Graduated Microsoft Accelerator London (cohort #6), receiving mentorship from Microsoft experts.

Education

2015 - 2018 | BSC INFORMATION MANAGEMENT FOR BUSINESS | UNIVERSITY COLLEGE LONDON

- Achieved first class honors in each year of study.
- Course areas: Management, Information Technology.
- Modules include: IT Project Management, Software Engineering, Business Analytics, Information Systems, Managerial Decision Making, Organisational Change, Managerial & Financial Accounting, Programming 1 & 2.

2012 - 2015 | MATURA (SAT EQUIV.) | COPERNICUS BILINGUAL HIGH SCHOOL, WARSAW, POLAND

- Top 1 percentile in school and nationally – achieved 100% in Mathematics and English and 98% in Information Technology (all subjects extended-level).

Volunteering and projects

2016 - 2017 | ENGINEER & DESIGNER | ORBIT

- Side project – ongoing development of a mobile application for location-based content sharing, building upon a team project and business plan created for a software engineering university module.
- Responsible for frontend engineering and UX/UI of the application, collaborating with another student.

AUGUST 2016 – JULY 2017 | PRESIDENT | UCL CHESS SOCIETY

- Elected as the society's leader, coordinating the members' activities and managing the budget.
- Responsible for organizing events, meetings and teaching sessions for students of UCL and other universities.
